

Dear TVW Property Owners,

You may have recently received a survey from the US Department of Agricultural Statistics Service (NASS) requesting information on farming and agricultural activities on your property at Tres Valles West.

Answering the questions gets a little confusing since we all own about 37 acres, of which 5 acres is deeded for building and the other 32 acres are held in common and are undivided. I spoke with NASS this afternoon, and their guidance in completing the survey is as follows:

- 1) Be sure to return the survey to eliminate any potential for a fine.
- 2) Answer the questions using the acreage owned. (37)
- 3) Answer as best you can.

In answer to question #8, The largest number of livestock on hand at any one time in 2011 was 103.

On the front of the form write the following:

All rentals, expenses, and revenues for agricultural products are handled by the property owners association.

Tres Valles West Owners Association  
C/o Century Financial Solutions  
109 W. Main St  
Trinidad, CO. 81082

If you have questions, please call or email me.

Maria Smith
